

ATTACHMENT A REMARKS

The claims have been amended so to limit them to inductive systems for receiving power wirelessly by electromagnetic induction. Support for the amendments to the claims is provided in the application as originally filed. For example, an inductive system is considered in the original specification at page 1, lines 21-25, and also at page 2, lines 22-23 ("by way of electromagnetic induction"). In addition, all of the embodiments disclosed relate to such inductive systems (see, for example, Figure 4).

Favorable action is respectfully solicited.
